

ROL DUCK HUNT 2024

Aim – Encourage reading/paying attention to ROL event schedules, ROL website, and facebook handlers group... A bit of fun, and a chance to win a prize.

Prizes – Handlers finding all 100 ducks and sending in the evidence by 31.12.24... will earn free ROL entries for 2025 up to value of £24.

In the event of nobody finding the full set of ducks.. then the highest number of ducks found will earn their handler free entries for 2025 up to value of £18.

In addition, we will donate funds from ROL to charity at the end of the year to reflect the number of handlers who have participated in the 2024 Duck Hunt – so for example, if 50 people send us their “Ducks Found” list identifying when /where they’ve found numbered ducks... then we will match or better that number and donate that amount to a UK based Dog charity....

How the Duck Hunt will work...

During 2024 – we are going to hide 100 tiny numbered ducks for people to find.. hiding places will include the ROL schedules, ROL website and within the ROL handlers facebook group. Anything published in any of these places are fair game for ducks to hide in. The ducks may or may not be the same species, but all will be numbered...some may stake their territory and stick around for the rest of the year, some may migrate away before the end of the year.

When you find a duck – keep a note of where you found it and that ducks identifying number. Bit like with ROL entries – it is up to you to demonstrate on your list that you actually did find it.... (so keeping track of the duck number, the date you found it, and specifically where it is would be a good idea).

After the final ROL event of 2024, when we have hidden the final duck, we will publish on the website and in the handler facebook group when/how to send us your entries.....
