Bonus	BE9	Sit Leave Dog - Turn Stand						
Tie-Break	*(66)*	Sit Leave Dog - Angled Recall Over Jump (Hoop Option)						

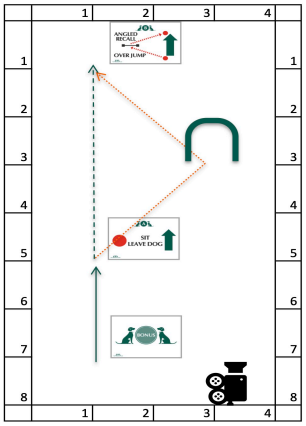

Level 6: OK Level 5: OK
Statics: OK

ROL December 2025 - Notes for Level 6 Plus

You will need a minimum space of 4m by 2m and a camera person or a wide angled lens.
Mark out an area 2m by 3 and place your tripod or camera person as indicated. Your exercise signs will be outside the marked area.
This course challenges you to maintain your positioning and accuracy in a condensed area so it is important to lay the course as directed

There is no warm up area - please enter off lead with your lead around your body. Please perform your ID in the centre of the ring AFTER your bonus (or the finish if you do not perform the bonus).

This is a Level 6 plus course and some regulations are relaxed. The distance between exercises has been condensed. Where exercises are laid with no distance between they should be performed so that the final static position in one becomes the first static position of the next or, if the exercise does not end/start in a static position, they should flow directly from one exercise to the next - these are NOT linked exercises so there is no option to take a step between.

Please note that:

- There is no distance between exercises:
  1 to 2, 3 to 6A, 8 to 9A, 9B to 11, 15 to 16 and 17 to 18
- Exercise 7 is a bonus exercise within the course
- Exercise 8 is a special exercise and should be performed as (Ex 48) but with Stands replacing the Sits
- Exercise 11 is a special exercise and should be performed as (Ex 20) but with a Stand replacing the Sit
- Exercises 13 and 14 are laid together to your left, 13 is performed first then as the team heel forward they should then perform exercise 14 as they reapproach the sign
- The Bonus sign is not required - the Bonus A sign is laid on the perimeter as shown
- Marking for the Bonus will begin once the handler asks their dog to sit, they may approach from within the "ring" if space dictates
- The tie-break bonus is (Ex 66) using the hoop option and laid as shown
