Notes - Options for sequence swopping.... At No 6, &/or No 8, &/or no 12 A
Example - leading dog sits at No 6 while other dog completes 6, 7, and then sits at no 8. original leading dog takes up the lead for completion of no 8....
Another example 12A - both dogs sit - whichever was leading waits until the other dog has completed the angle recall & finish - before being called out of the wait!
