OR - Bonus exercise 11 - turn, sit, retrieve FLORAL

REWARD DOG from vase & put flowers in vase

No tiebreak bonus - in the event of a tie then the quality of rewarding at the end will be the decider.

SCORING -

Dogs working Levels 1 - 4 choosing bonus 11 - bonus points earned will be doubled.

Handlers dropping flowers = 2 pt deduction for each flower dropped.

Failure to place five flowers in the vase = 20 pt deduction.

Failing to reward dog at the end = NQ. Rewards may be food and or toy play.

FLOWER TRAIL RULES /NOTES

Rally with a twist, the handlers are collecting & carrying flowers to put in a vase!
You will need at least five flowers (real or artificial) + vase to put them in (big enough to hide dogs rewards inside).

When setting up the course - place a flower behind the four signs as marked on the plan. Put rewards in the vase. Flowers may be placed on the ground - or raised up for example on a chair. Ensure handler can reach to pick them up! Dog should remain in static position while handler does this - one additional wait cue allowed. Dog will be marked for moving in the static while handler is collecting flowers.

Handler carries the bunch of flowers around the rest of the course, while continuing to work their dog. After passing the finish sign - the handler rewards the dog from the vase and places the flowers in the vase.

Then proceeds to their choice of bonus - retrieve item should be floral - e.g. flower(s)/ posy in a basket. After completing bonus - handler must reward dog for the second time & place bonus flower(s) in vase.....

If undertaking B3 - the bonus flower to be collected after the first sit. This flower should be placed in front of the bonus exercise sign.

If in use, retrieve item should be placed prior to round being started

Teams work on/off lead according to their eligible level - plus L1/2 teams should perform bonus off lead - bonus points earned will be doubled
