11	Left about turn		40
Finish	Heel past finish sign then reward		
BONUS	PLAY WITH YOUR DOG IN THE REWARD ZONE!		

Notes 9 - The huge blue circle is the reward zone - you can use as much of this as you wish to reward your dog.
This class is aimed at puppies and newbie dogs with the intention of building their conviction about a LOT of rewards interspersed with some rally exercises.... Switching clearly between play/rewards and work.. Repeatedly!
Bonus marks available for stupendous play and also mixing up the rewards used.
Where there is move to align the team for the next exercise, how you move to the point where you approach the next exercise will not be marked as heelwork - mix it up..... bonus points available for variety!
The thicker green arrows show where teams move to align with the next exercises...
Exercises 7,9 & 10 handlers choice to use food rewards in situ at end of exercise, keeping dog in position not to disrupt onward heeling....
