Finish				
Bonus	Send to mat	B9	Extra bonus points if the handler can sit on a chair /stool/deckchair while sending dog. *this means heeling up to chair, dog sits, handler sits, send dog, when dog is settled on mat - handler then completes ex by returning to dog as normal.	

Notes - 5 point deduction for each item "missed" and /or instructions not followed.... The idea is to throw in some fun variations on distractions for the handlers while working "normal" rally exercises... The items on the course may be placed on the floor or raised up on suitable chairs/stools/boxes. Nothing so large that the judge can't see the team working! If handlers choose to wear/change footwear - dogs won't be penalised if they move out of the static position ONCE the handler has touched their footwear (on or on the floor!)....
