FESTIVE DECORATIONS OF HANDLERS &/OR COURSE WELCOME...

THIS IS A SPECIAL FUN CLASS - PLEASE ENSURE THAT EVERYONE HAS FUN - HANDLERS - DOGS - CAMERA OPERATORS - VERIFYING TEAM - JUDGE!

REWARDS ARE ALLOWED IN THE MARKED AREA

Notes All teams work off lead. No ID process or requirement to show leads in video...

Pairs - 2 handlers /2 dogs - either work in tandem or alongside each other, holding consistent position in relation to each other the whole round.

Brace - 1 handler with 2 dogs - handler chooses whether to work both dogs at same time (may be one each side or both on left!) OR handler may choose to work them one after the other - when the dog not working must remain in a consistent "stay" position in the waiting area.

Inverted Brace - 2 handlers who both work the same dog - Handler NOT working must remain in the waiting area - silently! After completion of the bonus with first handler, team rejoins and heels into the waiting area - where a smooth transition to picking up heelwork with 2nd handler!

No tiebreaks - If teams are tied for places.... Quality of teamwork & coordination /transitions will be ranked!
