RallyOnline Group

I already compete in RKC live shows, and want to start video Rally – what video level should I do?

Handlers may choose where to start with ROL video Rally – some choose to hop across from a higher level to match where they have got to at live shows, some choose to start at video level 1. It is entirely the handlers choice!

One point to consider is that if handlers wish to work towards one of the ROL video Masters Title (details on ROL website)... these titles require points to be earned at every video level.
