RallyOnline Group

What markers/cones should I use?

Markers and cones are two distinct pieces of equipment for Rally.

Cones should have a maximum base diameter of 20cm – the two smaller ones in the photo. Cone exercises – Serpentine, Figure 8, Spiral Right, Spiral Left.

Markers / Pole for Bonus Exercise 13 – the largest traffic cone type or pole (1m+ tall) in the picture.

Homemade / recycled options for cones include flower pots, and for markers include electric fence posts /traffic cones.
