What are Tiebreak Bonuses & how do they work?

- All standard classes and most special classes will have a tiebreak bonus listed on the course plan (at the bottom of the list). This is a separate exercise which the judge will only watch IF there are teams tied on equal points for a place in the class. It is optional whether to submit a tiebreak bonus video – it only affects places, never qualifying scores.
- Handlers must submit the tiebreak bonus as a separate video – it may be filmed in the same location as the class round, or at a completely separate venue/time. Judges will not watch or consider tiebreak bonuses that feature at the end of the round + bonus.
- There is a pdf on the ROL website which shows the layouts & camera positions for the current competition bonus tiebreaks – these layouts do change occasionally, so it is always worth checking the requirements.
- No ID process required for Tiebreak videos – and from L3 & above, no leads needed.
