What happens if my video fails verification?

If your entry has been received PRIOR to the last 3 days that entries are open – the CRS will offer one chance for a free resubmission video for that class – providing it is received and passes verification the second time, your entry will go forwards into the competition.

If your entry has been received after this point, the CRS will notify the email address on the entry form – advising that the entry will be added to the judges list as an NQ but requesting some feedback to the handler.
